SUMMARY

AI undergraduate with hands-on experience in data analytics, and end-to-end data pipelines. Strong foundation in Python, SQL, Power BI, and applied machine learning with internship experience delivering data-driven insights and production-ready dashboards.

Technical Skills

- Programming & SQL: Python, PostgreSQL, SQLite
- Data & BI: Power BI, Excel, Pandas, NumPy, Matplotlib, Seaborn
- Machine Learning: Scikit-learn, TensorFlow
- Tools & Platforms: Streamlit, GitHub Actions, Hopsworks, Selenium, BeautifulSoup

Experience

Data Science Intern - 10Peals (Sep 2025 - Nov 2025)

- Built a serverless data pipeline ingesting real-time weather and pollutant data for time-series forecasting.
- Developed and optimized a Random Forest model achieving performance comparable to LSTM baselines.
- Deployed an automated Streamlit dashboard with continuous updates and scheduled retraining via GitHub Actions.

AI Intern – ITSOLERA (Jul 2024 – Oct 2024)

- Processed and analyzed datasets using Python and OpenCV to improve real-time detection accuracy.
- Contributed to healthcare analytics projects involving medical imaging and cardiovascular risk assessment.
- Collaborated with cross-functional teams to deliver AI-driven safety and healthcare solutions.

Projects

Vendor Performance Analysis (End-to-End Data Pipeline)

- Built a scalable Python–SQL ETL pipeline analyzing 128 vendors (\$451M in sales)
- Delivered KPI-driven Power BI dashboards to identify high-margin growth opportunities

Customer Churn Analysis

- Analyzed 6,687 customer records using Power BI
- Identified key churn drivers (contract type, pricing, competition) and proposed retention strategies

Education

BSc Artificial Intelligence (Expected 2026) – SZABIST University, Karachi

HSSC (Pre-Engineering) – Govt. College Nazimabad, Karachi

Matriculation – BVS Parsi High School, Karachi

Certifications

Data Analyst in Power BI – DataCamp

Python for Data Science and AI – Coursera

Data Analytics & Visualization Job Simulation – Accenture (Forage)

Excel Essentials for Data Analytics - Coursera

Analyzing IoT data in Python - Datacamp

McKinsey.org Forward Program
